

## EDI WIDODO

Associate Mining Technical Advisor

### PROFILE

Edi Widodo is a seasoned mining engineer with over 25 years of experience in mine planning, large-scale production, drill and blast operations, and mining management. His career spans roles such as Project Manager for greenfield coal mine development and Deputy Manager for large-scale mining operations. Edi's expertise includes overseeing feasibility studies, coal mine development, contract mining, business improvement programs, and operational transitions. Currently, he specializes in managing technical and operational aspects of open-pit copper mining with a focus on safety, health, and environmental compliance.
